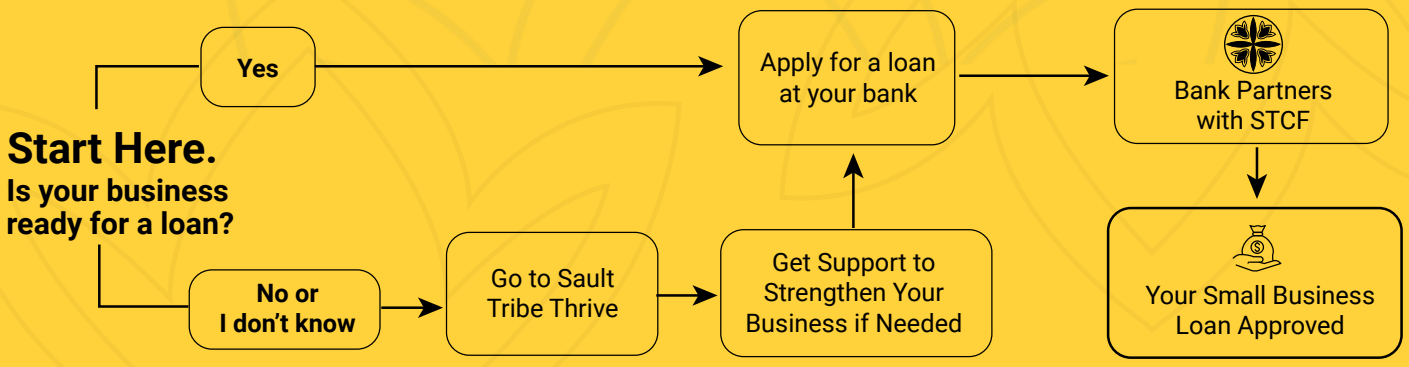
If you are a Sault Tribe member who owns a small business, this program is designed with you in mind. Backed by the U.S. Treasury, the State Small Business Credit Initiative helps lenders make more secure loans. Together, we're creating opportunities, fostering independence, and driving economic growth that benefits us all.



How does the program work?

We partner with lenders to make business financing more accessible. While you work directly with your lender, we provide credit support behind the scenes—helping them say "yes" with confidence.

Is the program right for me?

If you're a Sault Tribe Citizen with fewer than 750 employees, this program was created to help you succeed. It also offers support to help eligible applicants get bank-ready, ensuring you can navigate the loan process successfully.

How can it help my business?

This program can help you secure funding for: Working capital, Construction, Real estate, and Equipment. Purchase of goodwill/ bluesky is ineligible.

How do I participate?

Contact Sault Tribe Thrive for technical assistance or your local bank to begin the loan application process. If your lender needs additional support, they can reach out to the program for assistance.

Participating Lenders

baybank — To us, it's personal.
CSB Central Savings Bank — Ask what the CSB family can do for you
RangeBank
The Bank of Tioga
Upper Peninsula State Bank — You're going to like it here!
